List Holding Group celebrates “75 Years of Making an Impact”

There was a special occasion to celebrate in Bad Erlach: On June 26, the List Holding Group marked its 75th anniversary, joined by industry representatives from around the globe, political leaders, members of the press, and of course, its own employees. The event offered not only a moment to reflect on the remarkable history of this Austrian family-owned company, but also a look ahead to a future shaped by growth and ambition.

Craftsmanship from Lower Austria with global appeal

Since 1950, the name List has stood for craftsmanship of the highest standard. What began as a small carpentry in Aspang, Lower Austria, has grown into a globally sought-after group of companies. Today, it is known for crafting exclusive interiors for yachts and private residences, as well as innovative spatial solutions that redefine mobility, sustainability, and flexibility. Whether one-of-a-kind custom work or intelligent serial production – every company in the Group shares a commitment to quality, smart design, and forward-looking craftsmanship.

The company's headquarters in Bad Erlach serves as its heart, think tank, and production hub. Nearly 100 luxury yachts equipped with interiors from List General Contractor GmbH (List GC) now

sail the world's oceans. Add to that numerous high-end onshore projects, including exclusive apartments and residences across multiple continents. "75 Years of Making an Impact" captures the story of a family business whose precision, consistency, and sustainable influence extend far beyond its core industry.

"We are – and will remain – a company defined by reliability and strong partnerships, even though our projects span the globe," says Managing Director Theresa Ludwiger-List. "To us, working internationally while remaining deeply rooted in our region is not a contradiction – it's our key to success. It's this unique combination that enables us to deliver exceptional quality and drive innovation."

One Group, many talents

The List Holding Group comprises several specialized companies: List General Contractor GmbH, Cohrs Werkstätten GmbH, Riederle Werkstätten GmbH, Interior PROMAN GmbH, and Yuniti Innovations GmbH. Together, they form a powerful network of experts – from carpenters and engineers to project managers as well as product developers. Around 350 employees contribute not only with their craftsmanship and technical skills but also their ideas, curiosity, and passion for outstanding interior design.

The Group is also committed to training the next generation of skilled workers in carpentry, carpentry technology, finishing, and upholstery. Apprenticeships are a core element of the Group's long-term talent strategy and an important contribution to the development of the entire region.

"Our strength lies not only in the diversity of our talent and the variety of our companies but especially in our agility and willingness to explore new paths," explains DI Reinhard List, Managing Director of List Holding GmbH. "Together with a committed team and a values-driven approach, we're actively shaping the future – always building on a solid foundation that is passed on from one generation to the next."

Growth with foresight

The List Holding Group is pursuing a clear strategy for sustainable growth and long-term success. With Theresa Ludwiger-List as Managing Director of the Holding and Bertram List as Managing Director of Yuniti Innovations, the next generation is an integral part of the leadership team – actively shaping the future while opening up new business areas.

At the same time, List GC continues to grow in Germany: Cohrs Werkstätten in Lower Saxony will consolidate its two current sites in Bad Fallingbommel and Dorfmark into one state-of-the-art location in Honerdingen. By 2027, this new facility will offer modern technologies, optimized workflows, and space for further team expansion.

Looking back with pride, looking ahead with excitement

The anniversary event was a moment to pause, say thank you, and look ahead together. Over the past 75 years, the List Holding Group has achieved a lot – and even more lies ahead. With

innovation, teamwork and a clear vision, the Group creates high-quality spaces where people can truly feel at home.

Among the guests were:

- Wolfgang Sobotka, former President of the National Council
- Harald Wrede, Vice Mayor of Bad Erlach representing Bärbel Stockinger, Mayor of Bad Erlach
- Franz Dinthobl, Member of the Lower Austrian Parliament representing Provincial Governor Johanna Mikl-Leitner
- Christian Moser, Vice President of the Chamber of Commerce, representing WKNÖ President Wolfgang Ecker

The evening also brought together an impressive mix of international experts – from renowned yacht builders and designers to forward-thinking leaders who are shaping tomorrow's spatial design far beyond the world of yachts.

About the List Holding Group

From a small, family-run carpentry business to a globally operating company – for 75 years, the List family has stood for a unique blend of tradition and innovation. Today, the third generation of the family is represented in List Holding GmbH, which safeguards the interests of the owning family and provides strategic guidance across the entire group. Theresa Ludwiger-List and her father, DI Reinhard List, form the management team of List Holding GmbH, while her brother, Bertram List, is active in the field of Business Development & Innovation. The List Holding Group today comprises a diverse set of companies. Among them is **List General Contractor GmbH (List GC)**, which has evolved from the original carpentry business. The portfolio of List GC is further enhanced by its two subsidiaries, **Cohrs Werkstätten GmbH** and **Riederle Werkstätten GmbH**, as well as a stake in **Interior PROMAN GmbH**, all three specializing in high-end yacht interiors. Through **Yuniti Innovations GmbH**, led by Managing Director Bertram List, the group is also driving forward new developments in mobile and modular living and working space solutions
